

ABSTRACT OF THE DISCLOSURE**COMPOSITION FOR YARNS, YARNS POSSESSING
IMPROVED PROPERTIES AND USE OF THESE YARNS**

5

The invention relates to a composition for yarns, fibres or filaments which can be deposited on these yarns, fibres or filaments in order to improve the properties of these yarns, fibres or filaments, in particular the resistance to abrasion. The invention also relates to a process for producing these yarns, fibres or filaments, and also to a rope comprising

10

these yarns, fibres or filaments, and to their use.
